

ESCO® Replacement Ripper Point

For Komatsu D375 dozer system

ESCO

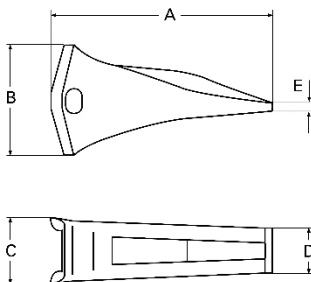

Ripper point

Reliable, longer service replacement ripper point

Field-proven ESCO replacement ripper points deliver significantly more resistance to impact than Komatsu OEM points. High-quality, forged ripper points feature superior hardness. Installation is easy with the precise fitting of the interior point cavity on the shank nose.

The central rib provides added strength. Achieve increased wear life with ESCO's ripper point that measures 25mm (1.00 in) longer than the OEM part. The self-sharpening profile will maintain effective penetration throughout the ripper point's life.

Dozer rippers endure some of the most severe conditions imaginable. Trust ESCO to provide ripping products that deliver unsurpassed performance

Benefits for D375 ripper point

- Longer life
- Improved penetration
- Reduced chance of breakage
